

MOHAMMED ZAID NAYAZ

Data Scientist | AI Engineer | Full Stack Developer

Bengaluru, India | +91 74835 92292 | zaidnayaz97@gmail.com | DOB: 12/11/2005

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Entry-level Data Scientist, AI Engineer, and Full Stack Developer with hands-on internship experience in Python, SQL, ETL workflows, data cleaning, exploratory data analysis, feature engineering, machine learning fundamentals, model-ready dataset preparation, reporting, REST API planning, database design, and responsive web development. Strong at documenting technical work, organizing GitHub-ready repositories, and translating business requirements into structured data and software deliverables.

INTERNSHIP EXPERIENCE

Feb 2026 - Present
Bengaluru, India

Data Science / AI Engineer Intern

Applic Coders Software Solution

- Work on Python-based data science workflows including data cleaning, preprocessing, EDA, feature engineering, and reporting.
- Prepare model-ready datasets and reusable analysis scripts using Python, Pandas, NumPy, SQL, and ETL concepts.
- Document GitHub repository management, project architecture, database design, UI/UX planning, and daily internship learning.
- Support full-stack planning for data-driven applications, including REST APIs, database schemas, dashboards, and deployment-ready documentation.

PROJECTS

SafeCityAI Traffic Violation Detection

Computer vision workflow for helmet, no-helmet, and license plate violation use cases using YOLO, FastAPI concepts, React dashboard planning, data annotation, and GitHub documentation.

Retail Demand Forecasting Analytics

Python ETL and SQL/PostgreSQL analytics project for sales summaries, demand forecasting foundations, price elasticity analysis, and business reporting.

Customer Churn Prediction Dashboard

Machine learning and dashboard concept for churn prediction, customer segmentation, model evaluation, business insights, and stakeholder-friendly analytics.

ZASA Fashion E-Commerce Website

Responsive full-stack e-commerce interface focused on product browsing, clean UI, React/JavaScript implementation, and conversion-oriented presentation.

EDUCATION

2023 - 2026

Bachelor of Computer Applications (BCA)

AMC Engineering College - Overall CGPA: 7.2

2022 - 2024

Pre-University Degree

Dayanand Sagar University

2023

High School

Bangalore International Academy (BIA)

SKILLS

Data Science:

Python, Pandas, NumPy, SQL, ETL, EDA, data cleaning, data preprocessing, feature engineering, reporting

Machine Learning:

Supervised learning, model evaluation, forecasting, churn prediction, computer vision, YOLO, analytics

Full Stack:

React.js, Node.js, Express.js, REST APIs, MongoDB, MySQL, PostgreSQL, HTML, CSS, JavaScript

Tools:

Git, GitHub, VS Code, Power BI, database design, UI/UX planning, project documentation, dashboards

CERTIFICATIONS

- Data Science and Machine Learning - Futures Prime Skills / NASSCOM-aligned, Silver category, 69%, ID FSP/2026/3/10278740, issued 27 Mar 2026.
- Data Science in AI - Persevox certification completed.
- AI with Python - NICT Computer Education Pvt. Ltd.; Microsoft Power BI and course-based analytics training.

LEADERSHIP & ACTIVITIES

- Selected as the School Captain in 2022.
- Prepared structured internship documentation covering GitHub repository management, project architecture, database design, UI/UX planning, and daily learning logs.

CORE COMPETENCIES

Data analysis, data visualization, business analytics, machine learning, computer vision, forecasting, customer churn prediction, REST API design, database schema planning, dashboard development, version control, technical documentation, problem solving, communication, and teamwork.

LANGUAGES & INTERESTS

English, Hindi, Kannada, Urdu. Interests: AI products, data science, machine learning, software engineering, business analytics, and full-stack product development.
